

Our graduates are typically in demand at:

- energy companies with worldwide operations
- international utilities
- regional utilities in Germany
- international engineering companies
- manufacturers of power plant equipment for renewable energy conversion
- thermal power plants

In cooperation with one of our partner universities, Offenburg University also offers some graduates of our Master's degree programs the possibility to pursue a Ph.D., as for example in cooperation with the University of Freiburg and the Fraunhofer ISE at the [Graduation School KleE](#).

Here are some examples of what our former students are doing:

Carlos Flores-Cadena

SCM Product Manager, Siemens Wind Power A/S

Rafael Gomez

Power Generation Portfolio Manager, EVO AG

Satya Gopisetty

PhD student, Graduiertenkolleg KleE

Daniel Jödicke

Energy Consultant, ECG Kehl

Rohish Kalvit

Fichtner Ingenieure, Stuttgart

José David Martínez

Process Engineer Vacuum Technology, Siemens VAI Metals Technologies
