

## Application

[Application and Deadlines](#)[Requirements](#)[Procedure](#)

Are you attracted by our international master's degree Program Process Engineering and meet all the requirements? Then you are invited to apply online through [OASIS](#).

There are 20 places per academic year.

### Application deadline for the winter semester:

- For applicants who need visa: March 31st
- Exceptionally, and if there are still places available, applicants not requiring visa for Germany may apply after this deadline. As the OASIS list is no longer accessible, please contact the MPE program coordinator directly.

Please use OASIS to enter your personal data:

At the end of the first selection process (in April for winter term) you will be informed if your application was short-listed. In this case you will be invited to send your complete application documents by postal mail.

Thanks for your patience!

Applicants should meet the following requirements:

- A bachelor of science/engineering degree in process engineering or a related area such as biotechnology, environmental engineering, or chemical engineering. A degree in mechanical, industrial, leather, textile, petroleum or energy engineering is **not** suitable for this program.
- Academic Excellence: You should be among the top third graduates of your institution.
- Proof of English proficiency, for example TOEFL [ 550 and higher (PBT), 213 and higher (CBT), 79 and higher (IBT) ] or IELTS 6.0 and higher (does not apply for native speakers).
- Willingness to integrate into an international environment in which different cultures, ideas, perspectives, and approaches will be encountered.

As the learning and teaching language of the study program is English, German and/or Polish language proficiency is not required. Knowledge of one or both of these languages is recommended for general living outside the university. If you plan to pursue a Ph.D. or work in Germany after receiving your master's degree, good knowledge of German will be essential.

## How to apply
